EXECUTIVE THESIS: WHY ZAIN SUDAN BUSINESS LEADS NOW

Despite wartime contraction in 2023–2024, Sudan's economy returns to growth in 2025–2026 (+1.9% to +3.2% World Bank; +9.5% IMF). Over **3.3 million people have returned** to Khartoum (~1.7M) and Aj Jazirah (~1.0M), while Port Sudan, Kassala, Gedaref, River Nile, and Northern State operate as resilient enterprise corridors. With **12.4M customers in Q1 2026 (+13% YoY)**, **US$157M Q1 revenue (+34% YoY)**, the **Bede mobile money platform**, and the Nov 2026 Starlink deadline, Zain Sudan is uniquely positioned to capture enterprise connectivity, cloud hosting, and corporate payments.

الرؤية التنفيذية: لماذا تقود «زين أعمال» السوق الآن

مع عودة أكثر من **3.3 مليون مواطن** إلى الخرطوم والجزيرة واستقرار المراكز التجارية في بورتسودان وكسلا والقضارف ونهر النيل والشمالية، تبرز نافذة استراتيجية غير مسبوقة لقطاع الأعمال. تمتلك زين السودان **12.4 مليون مشترك** وإيرادات ربع سنوية بلغت **157 مليون دولار (+34%)** ومنصة **Bede** للمدفوعات وبنية سحابية جاهزة (ZainCloud). ومع انتهاء مهلة Starlink في **نوفمبر 2026** وتوقف خدمات الثريا، تحتاج المنظمات والبنوك والشركات فوراً إلى بدائل مرخصة وموثوقة من زين.

FIVE VERIFIED STRATEGIC FINDINGS SHAPING THE B2B PLAYBOOK

النتائج الاستراتيجية الخمس الموثقة

01 **The addressable market is the SAF-held east, north and centre, now including Khartoum again.** — السوق القابل للخدمة يتركز في الشرق والشمال والوسط الخاضع لسيطرة القوات المسلحة، ويشمل الخرطوم مجدداً.
Port Sudan, Kassala, Gedaref, Atbara, Dongola, Kosti, Damazine and Khartoum have working networks; Darfur and most of Kordofan do not and remain out of scope. [35,36]

02 **Alternatives to licensed operators are being squeezed in the same quarter.** — البدائل غير المرخصة تواجه تضييقاً متزامناً في الربع نفسه.
Starlink is unlicensed and its humanitarian grace period ends in November 2026, Thuraya was terminated in February, and the humanitarian telecom cluster has no 2026 funding and moved to cost-sharing. Organisations now have to buy their own licensed connectivity. [36,33]

03 **Zain already has most of what the market needs—plus two fresh reference wins.** — تمتلك زين بالفعل معظم ما يحتاجه السوق، مدعوماً بعقدين مرجعيين حديثين.
From APN and Bulk SMS to IoT, Fleet, Cloud and the Bede wallet with Bede Corporate disbursement. Zain also won reference deals with the Ministry of Finance (Eisali SMS, Oct 2026) and Sudan Customs (IoT cargo supervision, Jan 2026). [1,12,13,14]

04 **Portfolio gaps against Sudani and Zain's Gulf peers can be closed through partners.** — الفجوات في المحفظة مقارنةً بـ «سوداني» وشركات زين في الخليج يمكن سدّها عبر الشركاء دون بناء شبكة جديدة.
The gaps are fixed fibre, satellite (VSAT), managed security and data-centre co-location, where Sudani markets offers and Zain Sudan lists none. Dual-path APN, a TPRA-licensed VSAT partner and published internal products close this fast. [17,1]

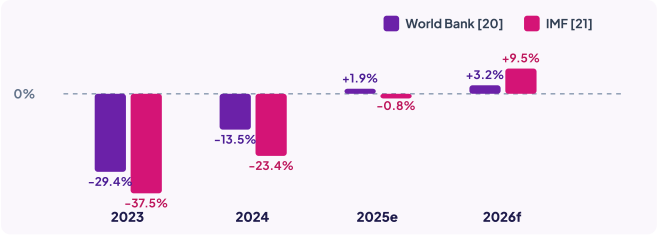

05 **The main constraints are commercial and operational, not customer demand.** — القيود الأساسية تجارية وتشغيلية وليست في حجم الطلب.
A depreciating currency with multiple exchange rates, network outages and state-ordered exam shutdowns, and targeted international sanctions require indexed pricing, offline-tolerant design and strict counterparty screening. [23,40,64]

COMBINED 12-SECTOR PRIORITY RANKING (STRATEGY SCORE vs. SALES SPEED)

الترتيب الموحد للقطاعات الـ 12

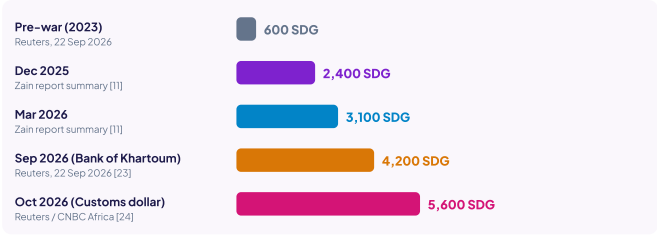

RANK	SECTOR NAME (EN / AR)	EXECUTION TIER	STRATEGY SCORE	SALES RANK	LEAD ENTRY BUNDLE & IMMEDIATE HOOK
#1	**NGOs, UN & Humanitarian** · المنظمات الدولية والأمم المتحدة والعمل الإنساني	TIER 1 · MOVE NOW (0–90 DAYS)	4.30 / 5.0 (#2)	#1	A beneficiary SMS/IVR line plus a Bede disbursement pilot for one agency.
#2	**Banking & Fintech** · المصارف والتقنية المالية (Fintech)	TIER 1 · MOVE NOW (0–90 DAYS)	4.30 / 5.0 (#1)	#2	An OTP SMPP pilot with one bank, and dual-path APN for one POS or ATM estate.
#3	**Logistics, Ports & Transport** · اللوجستيات والموانئ والنقل	TIER 2 · BUILD NEXT (3–6 MONTHS)	3.30 / 5.0 (#5)	#3	A small fleet pilot plus automated delivery SMS for one transport operator.
#4	**Retail & SMEs (incl. Relocated Businesses)** · التجزئة والشركات الصغيرة والمتوسطة (بما فيها المنتقلة)	TIER 2 · BUILD NEXT (3–6 MONTHS)	3.70 / 5.0 (#4)	#4	A Business Flex package with Bede POS/QR acceptance, sold through Authorized Sales Partners.
#5	**Government & Public Sector** · القطاع الحكومي والخدمة العامة	TIER 2 · ZAIN-LED TRACK (3–6 MONTHS)	4.00 / 5.0 (#3)	#12	A citizen notification & fee-collection short code for one additional agency, modelled on Eisali.
#6	**Health** · القطاع الصحي	TIER 3 · PROGRAMME-LED (6–12 MONTHS)	3.30 / 5.0 (#6)	#5	An SMS appointment/vaccination reminder pilot with one NGO health programme or private hospital chain.
#7	**Agriculture & Exports** · الزراعة والصادرات الزراعية	TIER 3 · PROGRAMME-LED (6–12 MONTHS)	3.05 / 5.0 (#7)	#6	A market-price SMS service and Bede outgrower payout pilot with one cooperative or food-security programme.
#8	**Mining & Gold** · التعدين والذهب	TIER 4 · GATED (ZAIN-LED DUE DILIGENCE ONLY)	3.00 / 5.0 (#8)	#7	Tracking for a small vehicle fleet at one licensed government-side mining operator.
#9	**Education** · التعليم والجامعات	TIER 4 · LATER (12+ MONTHS)	2.95 / 5.0 (#10)	#9	A campus data bundle plus exam-result SMS & Bede fee collection with one returning university.
#10	**Oil, Energy & Solar** · النفط والطاقة والطاقة الشمسية	TIER 4 · LATER (12+ MONTHS)	2.65 / 5.0 (#11)	#8	Generator fuel and solar-inverter IoT monitoring at one commercial site or through a solar installer.
#11	**Construction & Reconstruction** · المقاولات وإعادة الإعمار	TIER 4 · PREPARE NOW, SELL LATER	3.00 / 5.0 (#9)	#11	Equipment trackers and site data cards for one contractor working on a Khartoum rehabilitation project.
#12	**Hospitality & Guesthouses** · الضيافة والفنادق والاستراحات	TIER 4 · WITHIN THE SME BUNDLE	2.65 / 5.0 (#12)	#10	4G/APN Wi-Fi backhaul plus booking confirmation SMS and Bede QR for one hotel or guesthouse group.

REAL GDP GROWTH TRAJECTORY (WORLD BANK VS. IMF, 2023–2026F)

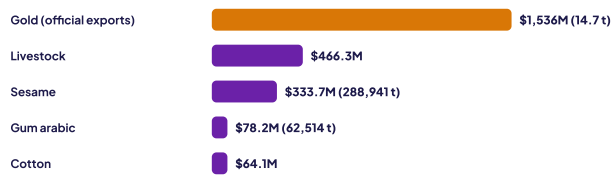

Key Insight: Both institutions confirm the wartime economic trough passed in 2023–2024, with positive growth returning in 2025–2026 driven by gold exports, agriculture, and Khartoum/Jazirah returnees.

MULTI-RATE SDG / USD EXCHANGE REALITY (WHY INDEXED PRICING WINS)

Commercial Rule: Anchor international NGO, UN, port, and mining contracts in USD/hard currency while billing local SMEs and agricultural traders in SDG indexed to commercial bank transfer rates [20, 23, 24].

2025 OFFICIAL EXPORTS (US$2.64 BILLION TOTAL — CENTRAL BANK / PUBLIC DATA)

THE NOV 2026 REGULATORY CATALYST: STARLINK & THURAYA

1. TPRA Unlicensed Satellite Cutoff (Nov 2026): Sudan's regulatory authority requires humanitarian and enterprise users to transition off unlicensed Starlink terminals by November 2026 [36].

2. Thuraya Service Termination (1 Feb 2026): Thuraya satellite voice/data services ended across Sudan in February 2026 [33].

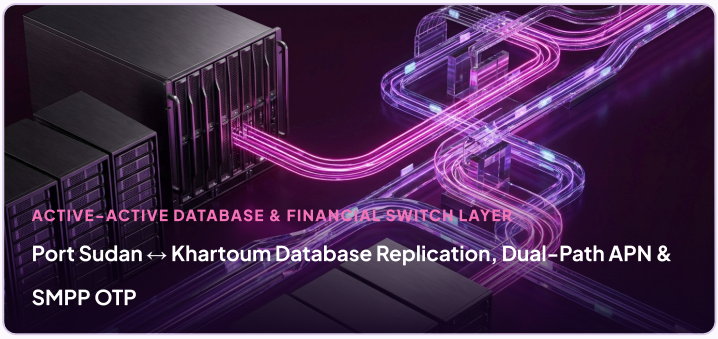

3. ETC Funding Shift (2026): The UN Emergency Telecommunications Cluster has 0% central funding for 2026 and moved to cost-sharing — forcing UN agencies and INGOs to procure commercial SLAs directly from **Zain Sudan Business**.

GEOGRAPHIC ADDRESSABILITY: SAF-HELD ENTERPRISE CORRIDORS vs. RSF ZONES

الخريطة الجغرافية للمناطق القابلة للخدمة

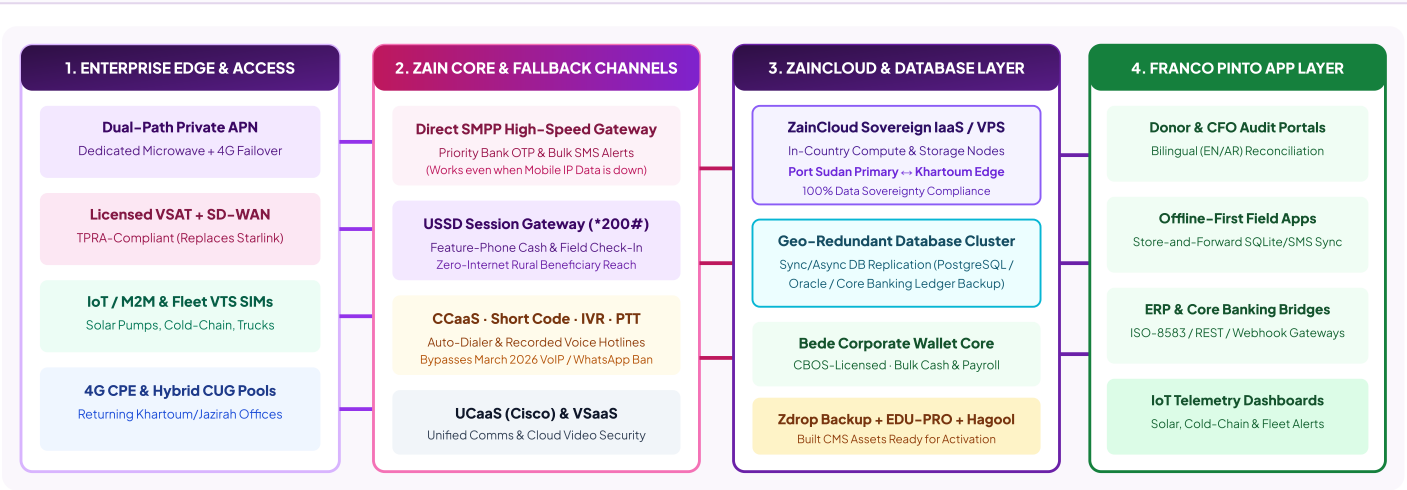

OPERATING ZONE	KEY STATES & COMMERCIAL HUBS	NETWORK & RETURNEE REALITY (2025–2026)	ZAIN B2B COMMERCIAL POSTURE
ZONE A · CORE B2B	**Port Sudan (Red Sea), Kassala, Gedaref, River Nile (Atbara), Northern (Dongola), Sennar, White Nile, Blue Nile**	Primary diplomatic & humanitarian hubs, central banking, maritime port, gold mining concessions, and agro-industrial production [14, 35, 36].	**Full Direct Enterprise Sales:** Dedicated APN, ZainCloud, Bede Corporate, Fleet VTS, and licensed VSAT failover.
ZONE B · RETURN CORRIDOR	**Khartoum State (~1.7M returnees) & Aj Jazirah / Wad Madani (~1.0M returnees)**	Government formally returned to Khartoum in Jan 2026 [48]; ministries, banks, universities, hospitals, and wholesalers reopening branches rapidly.	**Rapid Re-Opening Kits:** Khartoum Return 4G CPE kit, Site-Office Connectivity, Cloud DR sync with Port Sudan.
ZONE C · CONTESTED / RSF	**Darfur States & Most of Kordofan**	Out of scope for direct network deployment; fragmented terrestrial infrastructure and strict sanctions compliance rules [35, 64, 69].	**Out of Scope / HQ-Only Humanitarian Support:** Serve HQ contracts in Port Sudan & Khartoum only.

END-TO-END ENTERPRISE INFRASTRUCTURE, DATABASE & FAILOVER TOPOLOGY (FOR B2B PRESALES)

مخطط البنية التحتية وقواعد البيانات والتوافر العالي

1. CLOUD & DATABASE CONTINUITY

Position **ZainCloud VPS + Zdrop Backup + Managed Database Replication** as the sovereign disaster-recovery backbone for banks, ministries, and universities operating split teams between Port Sudan and returning Khartoum HQs.

2. ZERO-DOWNTIME FALLBACK

Every enterprise proposal combines **IP connectivity (4G APN + Licensed VSAT)** with **non-IP continuity (SMPP SMS + USSD *200# + IVR Short Code)** so operations never halt during fiber cuts or exam shutdowns.

3. TURNKEY SOLUTION PRESALES

Zain provides the licensed telecom, cloud, and Bede wallet rails; **Franco Pinto** delivers the last-mile software integration, custom dashboards, and client onboarding — zero extra engineering burden on Zain's core team.

7 BUILT PRODUCTS IN ZAIN SUDAN (READY FOR IMMEDIATE PRESALES ACTIVATION)

7 منتجات مجهزة داخلياً وجاهزة للتفعيل التجاري الفوري

Zain Sudan already holds **seven built enterprise products** (including Cisco-based UCaaS, Push-to-Talk, VSaaS, Zdrop backup, EDU-PRO/LMS-PRO, Smart Agriculture Hagool, and Digital Ads/Call Signature) that are not yet published on the public B2B menu [1, 15]. For the **Cloud, Hosting & B2B Presales Team**, activating and bundling these existing assets represents the fastest, zero-CAPEX path to new enterprise revenue:

BUILT PRODUCT NAME	CORE CAPABILITY (EN / AR)	IMMEDIATE PRESALES FIT & TARGET BUYERS
UCaaS (Cisco-based)	Unified communications as a service الاتصالات الموحدة كخدمة (مبنية على Cisco)	Ministries and banks re-establishing offices in Khartoum
Push-to-Talk	Group voice over the mobile network الاتصال الصوتي الجماعي الفوري عبر شبكة الجوال	Logistics, NGO field teams, mining, construction
VSaaS	Video surveillance as a service المراقبة المرئية السحابية كخدمة	Warehouses, bank branches, compounds
Zdrop	Backup and disaster recovery النسخ الاحتياطي والتعافي من الكوارث	Any organisation that lost data in 2023–2024; banks, government
EDU-PRO / LMS-PRO, Zees	Education and learning-management systems أنظمة إدارة التعليم والتعلم الإلكتروني	Universities returning to Khartoum with faculty abroad
Smart Agriculture (Hagool)	Agriculture advisory and IoT solution حلول الزراعة الذكية والإرشاد («حقول»)	Gedaref, Kassala and River Nile producers and cooperatives
Digital Ads & Call Signature	Targeted digital campaigns; branded caller identity الإعلانات الرقمية الموجهة؛ تعريف هوية المتصل للمؤسسات	Retail, banks, SMEs

REGIONAL BENCHMARK: ZAIN SUDAN vs. ZAIN KSA, ZAIN KUWAIT & ZAIN BAHRAIN

المقارنة المعيارية الإقليمية مع شركات مجموعة زين في الخليج

ENTERPRISE CAPABILITY	ZAIN SUDAN PUBLIC MENU	ZAIN KSA [4]	ZAIN KUWAIT [5]	ZAIN BAHRAIN [6]
Dedicated internet access (DIA)	Not listed	DIA	—	Dedicated Internet
IP-VPN / branch interconnect	APN only	IP-VPN	—	Local / global connectivity
Fixed wireless / 5G broadband	4G data cards & routers	Zain AirFiber	5G / wireless fixed	Wireless broadband
SIP trunk / fixed voice / PABX	Not listed	SIP trunk; SBCaaS	HCS	Landline & PABX
UCaaS / collaboration	Built, unpublished	Video conferencing	Teams, WebEx, M365	UCaaS
SD-WAN / managed router	Not listed	SD-WAN; managed router	SD-WAN bundles	SD-WAN (Fortinet)
Managed security (SOC / FWaaS)	Not listed	Anti-DDoS, FWaaS, SASE, SOC	MDR / SOCaaS	Managed security
Data centre / co-location	Not listed	—	Zain Business Data Center	Co-location
Business payment collection	Bede (consumer-framed on B2B site)	Zain Collect	—	—

STRATEGIC TAKEAWAY FOR CLOUD & B2B PRESALES LEADERSHIP

Zain KSA, Zain Kuwait, and Zain Bahrain generate substantial B2B margin from **Cloud/Data Center, Managed Cybersecurity, SD-WAN, UCaaS, and Corporate Payment Collection** [4, 5, 6]. Zain Sudan already possesses the core building blocks (`ZainCloud`, `Zdrop`, `UCaaS`, `VSaaS`, `VTS`, `SMPP`, and `Bede Corporate`). Publishing these 7 internal assets and packaging them with Franco Pinto's vertical software layer closes the gap with Gulf sister OpCos and Sudatel [17] immediately.

SIX OUTCOME-BASED BUNDLES BUILT FROM EXISTING ZAIN SUDAN ASSETS حزم متكاملة مبنية من أصول زين الحالية 6

01. Connected Aid [12,33,36]

Target: NGOs, UN agencies & humanitarian hubs

- Bede Corporate bulk disbursement & payroll
- Bulk SMS, Short Code, IVR & Auto-Dialer accountability lines
- Staff SIM pools (Zain Hybrid / Business Flex)
- APN & 4G data-card failover for compounds; Fleet VTS

Franco Pinto Layer: Bilingual reconciliation & donor audit portal for Bede payouts, SMS/USSD beneficiary registration fallback, and offline-tolerant field sync.

Why It Wins Now: ETC cluster funding shift, Thuraya exit and the November 2026 Starlink deadline land in the same quarter. The licensed corporate wallet already exists.

02. Transaction Messaging & Terminal Connectivity [3,12,52]

Target: Banks, microfinance institutions & licensed wallets

- High-throughput SMPP OTP & transaction alerts
- Dual-path private APN for POS estates and ATMs to bank data centres
- IVR & CCaaS for returning customer load; Bede payouts & collections

Franco Pinto Layer: SMPP & core-banking API middleware, automatic delivery-receipt reconciliation dashboards, and dual-SIM/APN failover architecture.

Why It Wins Now: Banks are reconnecting to the restored national payment switch (Aug 2026) while cash scarcity drives massive mobile app volume.

03. Khartoum Return [13,48,49]

Target: Ministries, state agencies, returning bank HQ & diplomatic missions

- Eisali-style citizen notification & e-collection short codes
- Rapid temporary-office kit: 4G routers, data cards & private APN
- ZainCloud, CCaaS, plus UCaaS & Zdrop backup once published

Franco Pinto Layer: Rapid e-service citizen portals with SMS/IVR hooks and automated ledger reconciliation (delivered behind Zain's government-relations team).

Why It Wins Now: Replicates Zain's October 2026 Ministry of Finance Eisali reference deal across agencies returning to temporary premises with no fixed lines.

04. Export Corridor [14,25,36]

Target: Trucking fleets, freight forwarders, exporters & Port Sudan operators

- Fleet Management & VTS data bundles
- IoT & private APN for yards and warehouses; VSaaS once published
- Automated Bulk SMS cargo notices; Bede driver & fuel payouts

Franco Pinto Layer: Store-and-forward telemetry for coverage dead zones, transport-management integration, and fuel/driver analytics.

Why It Wins Now: Port Sudan carries the country's trade to Khartoum and the east, and Zain's Jan 2026 Customs/Jointech IoT agreement puts Zain inside the cargo flow.

05. Business in a Box [1,3,12]

Target: SMEs, relocated merchants, clinics & guesthouses

- Business Flex or Hybrid SIMs for predictable staff connectivity
- Bede merchant QR & POS acceptance
- Bulk SMS & targeted Advertising Solutions; Blue Enterprise ERP

Franco Pinto Layer: Lightweight mobile POS & stock app with SMS marketing connector, Arabic WhatsApp text front desk (calls restricted), and dealer onboarding kit.

Why It Wins Now: Sold as a simple volume play through Zain's Authorized Sales Partners—combining SIM, cashless payments and customer reach in one account.

+. Licensed Satellite Partnership [17,37]

Target: NGOs in deep field sites, licensed mining & remote infrastructure

- TPRA-licensed partner VSAT sold under Zain enterprise account
- Combined with SD-WAN over 4G for seamless terrestrial/satellite failover

Franco Pinto Layer: Multi-link SD-WAN edge configuration, traffic shaping for low-bandwidth links, and unified uptime monitoring.

Why It Wins Now: Closes Zain's largest portfolio gap against Sudani while giving humanitarian and enterprise buyers a legal, licensed alternative to Starlink.

SPOTLIGHT: BEDE CORPORATE — SUDAN'S LICENSED ENTERPRISE DISBURSEMENT & COLLECTION ENGINE [8, 12]

محفظة Bede للشركات والمؤسسات

Licensed by the Central Bank of Sudan (CBOS) and launched with Visa capabilities [8, 12], **Bede Corporate** is the crown jewel of Zain Sudan's B2B value proposition—turning every connectivity deal into a recurring financial transaction relationship:

1. Humanitarian Cash (CBT)
Bulk stipend & cash-for-food payouts to thousands of beneficiaries with instant SMS confirmation and donor audit logs.

2. Corporate Payroll
Salary and field-allowance disbursement for remote teachers, health workers, security guards, and mine/construction crews.

3. B2B Merchant Collection
Cashless invoice collection for FMCG distributors, universities, hospitals, solar PAYG providers, and state utilities.

4. Franco Pinto Portal
Bilingual maker-checker approval workflows, automated reconciliation, and ERP/Core-Banking connectors.

COMBINED RANK
#1

Tier 1 · Move now (0–90 days) | Strategy Score: 4.30 / 5.0 (#2) | Sales View Rank: #1

NGOs, UN & Humanitarian

المنظمات الدولية والأمم المتحدة والعمل الإنساني

1. MARKET REALITY & BUYER PERSONA

Buyer: ICT Manager, Logistics Coordinator and Country Operations Manager at UN agencies and INGOs (WFP, IOM, UNICEF, IMC, NRC).

- 33.7M people in need; the 2026 plan requires US$2.87bn (14% funded); 170+ organisations operating across Sudan. [VERIFIED · [26]]
- Emergency Telecommunications Cluster (ETC) had no 2026 funding in Jan 2026 and moved hubs to a cost-sharing, on-demand model. [VERIFIED · [33]]
- TPRA ended Thuraya services from 1 Feb 2026. Humanitarian Starlink users must register kits and move to enterprise plans before the grace period ends in November 2026. [VERIFIED · [33,36]]
- Shared humanitarian telecom service supported ~1,700 users at 70 locations (44 in Port Sudan, 21 in Kassala) in Aug 2026; agencies are returning offices to Khartoum. [VERIFIED · [35,51]]

Operational Pain Points:

- Connectivity budgets have shifted from the central cluster to each individual agency just as satellite options close.
- Reaching beneficiaries and confirming cash aid delivery when mobile data and WhatsApp calls fail.
- Fast staff connectivity in newly re-opened Khartoum premises and clean audit trails for international donors.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Bede Corporate bulk fund disbursement and salary distribution—already explicitly marketed 'for NGOs'.
- Bulk SMS, Short Code, IVR and Auto-Dialer for beneficiary feedback and accountability hotlines.
- Staff SIM pools on Zain Hybrid or Business Flex; APN and 4G data cards with failover for compounds and guesthouses.
- Fleet Management for field vehicles; Push-to-Talk once published.

RECOMMENDED PRESALES OPENING LINE:
"Reach beneficiaries by SMS and IVR, pay them through Bede, and keep your staff connected—even when data is down."

Lead Bundle: A beneficiary SMS/IVR line plus a Bede disbursement pilot for one agency.

Sales Route: Zain enterprise sales through ETC, Logistics Cluster and cash working-group forums.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Reconciliation and donor reporting portal for Bede disbursements, in Arabic and English.
- Beneficiary registration with SMS and USSD fallback; interactive IVR feedback lines.
- Offline data sync and integration with agency beneficiary management systems.
- Custom fleet visibility and safety dashboards.

Commercial & Risk Flags:

- UN procurement is formal: tenders, vendor rosters, strict data-protection and neutrality rules.
- MTN's MoMo was cited by the World Bank in 2025 as the incumbent humanitarian mobile-money provider; Bede must displace it with superior reporting and reach.
- Every payout requires sanctions and KYC screening; agency policies on operating areas differ.

ملخص العرض بالعربية: ثلاثة متغيرات حاسمة تجتمع في الربع نفسه: انتهاء تمويل الاتصالات المشترك، وتوقف الثريا، وانتهاء مهلة Starlink في نوفمبر. باتت كل وكالة ملزمة بشراء خدمات اتصال ورسائل مرخصة من ميزانيتها الخاصة، مما يجعل الربع الرابع من 2026 نافذة الفرصة الحاسمة.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

أهم 5 عملاء محتملين ودليل صناع القرار

Actionable target accounts for Zain B2B Presales & Cloud/Hosting team to research, locate the Decision-Maker, and pitch

#	TARGET ORGANIZATION (EN / AR)	OPERATING HUB	DECISION-MAKER (DM) TO SEARCH	WHY TARGET / SPECIFIC PAIN POINT	RECOMMENDED PRESALES OUTREACH PITCH
1	**World Food Programme (WFP) Sudan** برنامج الأغذية العالمي (WFP) — السودان	Port Sudan & Khartoum Hubs	**Country Director / Head of Cash-Based Transfers (CBT) & Lead ICT Officer (ETC)** المدير القطري / رئيس التحويلات النقدية (CBT) ومسؤول تقنية المعلومات	Leads the Emergency Telecommunications Cluster (ETC) which lost 2026 central funding, while managing massive cash-for-food disbursements that require instant SMS/USSD confirmation and donor audit logs.	Pitch the Connected Aid bundle: Bede Corporate bulk cash disbursement paired with Franco Pinto's bilingual donor reconciliation portal and licensed 4G/APN compound connectivity before the Nov 2026 Starlink deadline.
2	**UNICEF Sudan** منظمة الأمم المتحدة للطفولة (UNICEF) — السودان	Port Sudan, Kassala & Returning Khartoum Office	**Chief of Operations / ICT Manager & Social Policy (Cash Plus) Lead** رئيس العمليات / مدير تقنية المعلومات وقائد برامج الدعم النقدي	Paying thousands of frontline health workers, teachers and Mother-and-Child Cash Transfer beneficiaries across SAF-held states where physical banking cash is unavailable.	Offer spreadsheet-driven Bede Corporate stipend payouts with automated SMS/IVR beneficiary verification and Zain Hybrid staff SIM pools.
3	**International Organization for Migration (IOM) Sudan** المنظمة الدولية للهجرة (IOM) — السودان	Port Sudan, Kassala, Gedaref & Khartoum	**Chief of Mission / Head of Resources Management & DTM Coordinator** رئيس البعثة / مدير إدارة الموارد ومنسق مصفوفة تتبع النزوح (DTM)	Tracking over 9.3M internally displaced people and 2.2M returnees to Khartoum and Aj Jazirah while migrating field hubs off unlicensed satellite dishes.	Deploy offline-tolerant field data sync + USSD/SMS registration lines for DTM teams and dual-path APN for IOM transit centres.
4	**Norwegian Refugee Council (NRC) Sudan** المجلس النرويجي للاجئين (NRC) — السودان	Port Sudan, Kassala & Gedaref	**Country Director / Head of Support (Logistics & ICT) & Cash Lead** المدير القطري / رئيس الدعم اللوجستي والتقني وقائد البرامج النقدية	Multi-purpose cash assistance (MPCA) in eastern displacement camps suffers when mobile IP data drops and WhatsApp calls are restricted.	Lead with a 30-day pilot: toll-free beneficiary IVR accountability hotline + Bede disbursement pilot in Kassala and Gedaref.
5	**International Medical Corps (IMC) Sudan** الهيئة الطبية الدولية (IMC) — السودان	Port Sudan, Red Sea, Kassala & Blue Nile	**Country Director / Logistics & Field Security Coordinator** المدير القطري / منسق اللوجستيات والأمن الميداني	Keeping mobile medical teams, ambulances and remote clinics connected after Thuraya's termination (Feb 2026) and ahead of the Nov 2026 Starlink cutoff.	Bundle Zain Fleet VTS for medical vehicles, Push-to-Talk group voice, and 4G CPE routers with licensed VSAT failover.

COMBINED RANK **#2**

Tier 1 · Move now (0–90 days) | Strategy Score: 4.30 / 5.0 (#1) | Sales View Rank: #2

Banking & Fintech

المصارف والتقنية المالية (Fintech)

1. MARKET REALITY & BUYER PERSONA

Buyer: Head of Digital Channels, CIO and Head of Payments at banks; heads of operations at microfinance institutions and wallet operators.

- Central bank restored the national payment switch in August 2026, connecting Omdurman National Bank first; Bank of Khartoum reopened Omdurman and corporate branches; ONB reports 22 operating branches in Khartoum state. [REPORTED · [52]]
- Eight e-money issuers are licensed by CBOS: Bede (Zain), MoMo (MTN), SAH (Sudani + Africa Gulf Bank, 867k+ users), SudanPay, Cashi, Bravo, Zikher and Nil Pay. [VERIFIED · [12,18]]
- Bank of Khartoum's Bankak app reached ~7M users with an 85% surge in activations after the war began. [REPORTED · [53]]
- The monetary system is split: new banknotes are valid only in SAF-held areas, while a parallel central bank was announced in Nyala in May 2026. [REPORTED · [22]]

Operational Pain Points:

- The February 2024 blackout halted electronic payments entirely—operational continuity is now a board-level priority.
- Reliable, low-latency OTP delivery for mobile banking apps experiencing heavy user growth.
- ATM and POS uptime as branches reopen in Khartoum, Omdurman and eastern commercial hubs.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- SMPP, Bulk SMS and Short Code for high-priority OTP and transaction alerts.
- APN private data for branches, ATMs and POS (already published by Zain), architected with a second failover path.
- IVR and CCaaS; ZainCloud; Zdrop backup once published.
- Bede corporate payouts and collections; Bill Payment and Bulk Recharge.

RECOMMENDED PRESALES OPENING LINE:
"Transaction messaging and terminal connectivity that keep running through disruption."

Lead Bundle: An OTP SMPP pilot with one bank, and dual-path APN for one POS or ATM estate.

Sales Route: Zain key-account managers, with Franco Pinto in the technical architecture workshops.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- SMPP and API integration middleware with core banking and wallet platforms.
- Dual-path APN resilience architecture for POS and ATM estates.
- Real-time delivery-receipt monitoring and financial reconciliation dashboards.
- Automated bilingual IVR banking menus to offload call centres.

Commercial & Risk Flags:

- Bede competes with bank wallets, MoMo and SAH—keep connectivity and SMPP messaging offers strictly neutral so rival wallets buy from Zain.
- Central bank KYC rules and international sanctions apply: screen bank ownership (e.g., Al Khaleej Bank is on Canada's Sudan sanctions list [65]).

ملخص العرض بالعربية: شح النقد الورقي وتراجع العملة يجعلان الدفع الرقمي ضرورة يومية، في وقت تعيد فيه جميع المصارف والمحافظ الارتباط بالمقسم القومي للمدفوعات.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

أهم 5 عملاء محتملين ودليل صناع القرار

Actionable target accounts for Zain B2B Presales & Cloud/Hosting team to research, locate the Decision-Maker, and pitch

#	TARGET ORGANIZATION (EN / AR)	OPERATING HUB	DECISION-MAKER (DM) TO SEARCH	WHY TARGET / SPECIFIC PAIN POINT	RECOMMENDED PRESALES OUTREACH PITCH
1	**Omdurman National Bank (ONB)** بنك أم درمان الوطني (ONB)	Khartoum State (22 Operating Branches) & Port Sudan	**Chief Information Officer (CIO) / Head of Digital Banking (O-Cash & Banki-Net)** رئيس تقنية المعلومات (CIO) / مدير القنوات الرقمية (O-Cash وBanki-Net)	First bank to reconnect to the restored national payment switch (Aug 2026) with 22 branches reopening in Khartoum state—requires zero-downtime ATM/POS APN links and high-priority OTP delivery.	Expand the existing Zain × ONB relationship with dual-path APN failover for the 22 Khartoum branches and SMPP OTP delivery-receipt reconciliation.
2	**Bank of Khartoum (BOK — Bankak)** بنك الخرطوم (تطبيق «بنكك» — Bankak)	Khartoum, Omdurman & Port Sudan Corporate HQ	**Chief Technology Officer (CTO) / Head of Digital Channels & Payments** رئيس القطاع التقني (CTO) / رئيس القنوات الرقمية والمدفوعات	Bankak has ~7M users and an 85% surge in post-war activations, creating massive OTP SMS spikes, password-reset call-centre congestion, and branch APN reconnection pressure.	Pitch neutral high-throughput SMPP OTP routing with live delivery analytics plus automated Arabic/English IVR self-service to offload BOK's contact centre.
3	**Faisal Islamic Bank (Sudan) — Fawry** بنك فيصل الإسلامي السوداني (تطبيق «فوري» — Fawry)	Port Sudan & Returning Khartoum Branches	**Head of Information Technology / AGM Digital Banking & Cards** مدير قطاع التقنية / مساعد المدير العام للمصرفية الرقمية والبطاقات	Rebuilding POS merchant acceptance and ATM availability as commercial activity returns to Khartoum, while ensuring disaster-recovery backup outside conflict zones.	Offer Zain dual-SIM POS connectivity bundles, dedicated branch APN tunnels, and ZainCloud / Zdrop disaster-recovery replication.
4	**Al Salam Bank Sudan** مصرف السلام — السودان	Port Sudan & Khartoum Corporate Banking	**Head of IT & Digital Transformation / Chief Operating Officer (COO)** مدير تقنية المعلومات والتحول الرقمي / رئيس العمليات (COO)	Modernizing corporate e-banking, host-to-host ERP links, and secure branch interconnect between Port Sudan and Khartoum without relying on damaged terrestrial fibre.	Position Zain Private APN + SD-WAN over 4G with Franco Pinto API middleware for corporate treasury and transaction alerts.
5	**Cashi / SudanPay (Licensed E-Money Operators)** منصتا «كاشي» (Cashi) و«سودان باي» (SudanPay)	Port Sudan, Kassala, Atbara & Khartoum Markets	**Managing Director / Head of Payment Operations & Agent Network** المدير التنفيذي / مدير عمليات الدفع وشبكة الوكلاء	Merchant POS terminals and agent phones fail during mobile data blackouts or exam shutdowns, halting cashless retail transactions.	Sell neutral Zain POS APN SIM pools + USSD/SMS transaction fallback so their terminals clear payments even when IP data is restricted.

Tier 2 · Build next (3–6 months) | Strategy Score: 3.30 / 5.0 (#5) | Sales View Rank: #3

Logistics, Ports & Transport

اللوجستيات والموانئ والنقل

1. MARKET REALITY & BUYER PERSONA

Buyer: Fleet Manager, Logistics Director and Operations IT at trucking firms, freight forwarders, exporters and port operators.

- Port Sudan is the principal conduit of Sudan's foreign trade; UNDP reports import delays and inland corridor bottlenecks. [VERIFIED · [25,27]]
- In January 2026 Zain and Sudan Customs signed a strategic agreement with Jointech on smart customs and IoT cargo supervision. [VERIFIED · [14]]
- Logistics Cluster operates from Port Sudan and Khartoum; networks work along Port Sudan, Kassala, Gedaref, Atbara, Damazine and Kosti. [VERIFIED · [36]]

Operational Pain Points:

- Route security, delays and cargo theft along the Port Sudan–Atbara–Khartoum and eastern corridors.
- Fuel pilferage and driver accountability over long-haul trips.
- Merchants and aid agencies constantly calling to ask where their cargo is.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Fleet Management (powered by Zain / Bashasha) and published VTS data bundles.
- IoT and private APN for container yards and warehouses; VSaaS once published.
- Bulk SMS automated delivery notices; CCaaS for dispatch; Bede driver and fuel payouts.

RECOMMENDED PRESALES OPENING LINE:
"Track every truck, and tell customers automatically."

Lead Bundle: A small fleet pilot plus automated delivery SMS for one transport operator.

Sales Route: Zain enterprise sales with Port Sudan fleet operators, freight forwarders and exporters.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Integration with customer transport-management systems (TMS) and ERP.
- Automated milestone SMS alerts and fuel/driver performance analytics.
- Store-and-forward hardware configurations for coverage dead zones.

Commercial & Risk Flags:

- Complement the Jointech customs layer—do not compete with it.
- Ports Engineering Company Ltd (Port Sudan state-owned firm) was designated by OFAC on 26 Jun 2026 [64]—screen every port and logistics counterparty.

ملخص العرض بالعربية: معظم الواردات إلى السودان تنتقل بالشاحنات من بورتسودان، ومع عودة النشاط تدريجياً للخرطوم فإن الرؤية اللحظية لحركة الشاحنات توفر وفورات مالية مباشرة.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

أهم 5 عملاء محتملين ودليل صناع القرار

Actionable target accounts for Zain B2B Presales & Cloud/Hosting team to research, locate the Decision-Maker, and pitch

#	TARGET ORGANIZATION (EN / AR)	OPERATING HUB	DECISION-MAKER (DM) TO SEARCH	WHY TARGET / SPECIFIC PAIN POINT	RECOMMENDED PRESALES OUTREACH PITCH
1	**Sudan Customs Authority (Jointech Smart Cargo Expansion)** هيئة الجمارك السودانية (توسيع منظومة الشحن الذكي Jointech)	Port Sudan Red Sea Gates, Atbara & Dry Ports	**Director of IT & Smart Customs / Head of Transit & Risk Monitoring** مدير الإدارة العامة لتقنية المعلومات والجمارك الذكية / مدير الرقابة العابرة	Scaling the January 2026 Zain × Jointech IoT e-seal agreement across inland checkpoints where cellular coverage has dead zones between towns.	Add Franco Pinto's store-and-forward telemetry buffer, geofencing breach alerts, and clearance SMS notifications for importers.
2	**DAL Group Supply Chain & Logistics Fleet** أسطول الإمداد واللوجستيات — مجموعة دال (DAL Group)	Port Sudan – Atbara – Khartoum Corridor	**Supply Chain & Fleet Director / Group CIO** مدير سلاسل الإمداد والأسطول / رئيس تقنية المعلومات للمجموعة	High-value food, flour and industrial cargo moving across long corridors faces fuel pilferage, route delays and cash driver-allowance risks.	Pitch the Export Corridor bundle: Zain Fleet VTS + fuel sensors integrated into ERP, paired with Bede Corporate cashless driver & fuel payouts.
3	**CTC Group Logistics & Agribusiness Transport** قطاع اللوجستيات والنقل — مجموعة سيتك (CTC Group)	Port Sudan, Gedaref, Kassala & Khartoum	**Head of Logistics & Fleet Operations / Head of IT** مدير عمليات اللوجستيات والأسطول / مدير تقنية المعلومات	Coordinating heavy transport and warehouse yards across Port Sudan and eastern agricultural states with fragmented voice and tracking tools.	Combine Zain VTS fleet tracking, Push-to-Talk group dispatch, and private APN for warehouse inventory sync.
4	**Mahgoub Sons Group — Export & Port Corridor** مجموعة محجوب أولاده — قطاع الصادرات والنقل	Port Sudan, Gedaref & River Nile	**Export Operations Director / Logistics & Fleet Manager** مدير عمليات التصدير / مدير اللوجستيات والأسطول	Moving thousands of tonnes of sesame, cotton and agricultural exports to Port Sudan terminals while port congestion delays vessel loading.	Deploy automated milestone SMS alerts from truck GPS triggers so port clearing agents prepare customs paperwork before trucks arrive.
5	**WFP / Logistics Cluster Contracted Commercial Transporters** شركات النقل التجاري المتعاقدة مع مجموعة اللوجستيات (Logistics Cluster)	Port Sudan, Kassala, Kosti & Khartoum	**General Manager / Fleet Operations Lead at Contracted Haulier Firms** المدير العام / مدير تشغيل الأسطول في شركات النقل المتعاقدة	UN and INGO tenders increasingly require real-time GPS cargo visibility and verified proof-of-delivery to release freight payments.	Offer a fast 10-truck VTS + SMS Proof-of-Delivery starter package that makes local hauliers compliant with UN Logistics Cluster standards.

Retail & SMEs (incl. Relocated Businesses)

التجزئة والشركات الصغيرة والمتوسطة (بما فيها المنتقلة)

1. MARKET REALITY & BUYER PERSONA

Buyer: Business owner or general manager; wholesale and retail traders; wallet and Bankak merchants.

- Cash shortages push everyday buyers to digital apps, while SMEs keep operating on solar power (solar imports rose 6× in the year to June 2025). [VERIFIED · [22,28,31]]
- Zain publishes prepaid Business Flex tiers from daily MIN packs to MAX+ (100GB) and operates an Authorized Sales Partner network. [VERIFIED · [1,3]]

Operational Pain Points:

- Accepting customer payments reliably without physical banknotes.
- Letting existing customers know their new location after relocating to Port Sudan, the east or returning to Khartoum.
- Predictable staff mobile data costs and simple stock/sales tracking.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- 'Business in a Box': Business Flex or Hybrid SIMs, Bede merchant QR/POS, Bulk SMS and Advertising Solutions.
- Blue Enterprise ERP for growing mid-sized firms; Call Signature once published.

RECOMMENDED PRESALES OPENING LINE:
"Get paid and reach your customers from one Zain account."

Lead Bundle: A Business Flex package with Bede POS/QR acceptance, sold through Authorized Sales Partners.

Sales Route: Zain dealers and Authorized Sales Partners across Port Sudan, Kassala, Atbara and Omdurman/Khartoum markets.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Lightweight mobile POS and inventory app with a built-in SMS marketing connector.
- Automated Arabic WhatsApp text front desk (text-only, resilient to voice call restrictions).
- Turnkey partner training and onboarding kit for Zain dealers.

Commercial & Risk Flags:

- Low ticket size and higher churn; SDG prices lose value monthly so use short prepaid cycles.
- Design co-selling rules carefully to avoid channel conflict with Zain's own dealers.

ملخص العرض بالعربية: تشتري الشركات الصغيرة بسرعة عندما تكون الحزمة واضحة ويباعها وكيل قريب في السوق، مما يحول شبكة وكلاء زين إلى محرك مبيعات واسع الانتشار.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

Actionable target accounts for Zain B2B Presales & Cloud/Hosting team to research, locate the Decision-Maker, and pitch

#	TARGET ORGANIZATION (EN / AR)	OPERATING HUB	DECISION-MAKER (DM) TO SEARCH	WHY TARGET / SPECIFIC PAIN POINT	RECOMMENDED PRESALES OUTREACH PITCH
1	**Port Sudan Chamber of Commerce & Relocated Wholesale Merchants** الغرفة التجارية ببورتسودان وتجار الجملة المنتقلون	Port Sudan Central Market & Red Sea Commercial Zone	**Chamber Secretary-General / Wholesale Trading Company Owners** الأمين العام للغرفة التجارية / أصحاب شركات تجارة الجملة	Hundreds of relocated Khartoum wholesalers now operate from Port Sudan and struggle to notify former customers and collect B2B/B2C payments without cash.	Co-host a Chamber rollout of 'Business in a Box': Business Flex SIMs, Bede Merchant QR/POS, and targeted Zain Aalin location-announcement SMS.
2	**Omdurman Souq Libya & Al-Hara Reopening Merchants** تجار سوق ليبيا والحارات التجارية العائدة في أم درمان	Omdurman & Bahri / Khartoum Commercial Markets	**Shop Owners, FMCG Distributors & Market Traders Committee Leads** أصحاب المتاجر، وموزعو السلع الاستهلاكية،ولجان التجار	Physical banknotes are scarce and damaged; merchants rely on screenshots of banking apps that are slow to verify and prone to fraud during data congestion.	Deliver Bede Merchant QR with instant SMS payment verification to the cashier's phone—sold through Zain Authorized Sales Partners right in the market.
3	**Kassala & Gedaref FMCG & Food Wholesale Distributors** موزعو المواد الغذائية والسلع الاستهلاكية في كسلا والقضارف	Kassala & Gedaref Commercial Markets	**General Manager / Sales & Distribution Manager** المدير العام / مدير المبيعات والتوزيع	Managing field sales vans, stock levels and retailer credit across eastern towns using paper ledgers and personal WhatsApp lines.	Pitch Blue Enterprise ERP / Franco Pinto lightweight mobile POS & inventory app bundled with Zain Hybrid SIMs for sales reps.
4	**Atbara & Dongola Hardware, Solar & Auto-Parts Traders** تجار المعدات والطاقة الشمسية وقطع الغيار في عطبرة ودنقلا	Atbara (River Nile) & Dongola (Northern State)	**Business Owner / Commercial Branch Manager** صاحب العمل / مدير الفرع التجاري	High-ticket sales of solar panels, batteries, generators and spare parts require reliable business connectivity, customer warranty SMS and digital invoicing.	Offer 4G CPE broadband + Business Flex + automated Arabic WhatsApp text front desk (works even with voice calls restricted).
5	**Al-Amal & Regional Retail Pharmacy Chains** سلاسل الصيدليات والمراكز التجارية الإقليمية	Port Sudan, Wad Madani / Kosti & Khartoum	**Managing Owner / Operations & Inventory Manager** المالك المدير / مدير العمليات والمخزون	Customers constantly search for scarce essential medicines while multi-branch pharmacies need real-time stock sync and cashless counter payments.	Deploy an automated Arabic SMS/WhatsApp medicine-availability lookup desk + Bede POS + 4G branch router bundle.

COMBINED RANK #5

Tier 2 · Zain-led track (3–6 months) | Strategy Score: 4.00 / 5.0 (#3) | Sales View Rank: #12

Government & Public Sector

القطاع الحكومي والخدمة العامة

1. MARKET REALITY & BUYER PERSONA

Buyer: Ministry IT Directors and Digital Transformation Leads; state governments of Red Sea, Kassala, Gedaref, River Nile, Northern, White Nile and Khartoum.

- Government formally returned to Khartoum on 11 Jan 2026; Cabinet stressed 'digital transformation across all state institutions' on 5 Mar 2026. [VERIFIED · [48]]
- On 4 Oct 2026 the Ministry of Finance signed an SMS agreement with Zain for the state Eisali e-collection system. [VERIFIED · [13]]
- Government revenue is only 4.0% of GDP (World Bank), making revenue collection systems an urgent fiscal priority. [VERIFIED · [20]]

Operational Pain Points:

- Notifying citizens and collecting state fees reliably without cash leakage.
- Operating from hosted or temporary premises in Khartoum (e.g., seven ministries hosted at SMRC headquarters) with no fixed fibre.
- Rebuilding records and continuity after 2023–2024 infrastructure losses.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- The Eisali template: notification and e-collection short codes for tax, customs, passports and civil registry.
- Citizen IVR and CCaaS; Bill Payment and Bede collection.
- 'Khartoum Return' office kit: data cards, APN, ZainCloud, plus UCaaS and Zdrop once published.

RECOMMENDED PRESALES OPENING LINE:
"Reliable citizen notification and collection, live in weeks."

Lead Bundle: A citizen notification & fee-collection short code for one additional agency, modelled on Eisali.

Sales Route: Strictly through Zain's government-relations team; Franco Pinto supports technical delivery in the background.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Turnkey e-service citizen portals with SMS and IVR integration.
- Automated reconciliation of digital collections against agency ledgers.
- Reusable onboarding templates that make each subsequent agency faster to launch.

Commercial & Risk Flags:

- Slow payment cycles in depreciating SDG.
- Sanctions compliance: designated individuals sit in the SAF-aligned administration [64,65]; counsel review required so no benefit reaches a listed person.
- Strictly civilian e-services only—stay completely out of anything defence or security-related.

ملخص العرض بالعربية: يوجد الآن عقد مرجعي حي مع وزارة المالية؛ وكل هيئة حكومية محصّلة للرسوم تواجه التحدي ذاته، وتكرار نموذج «إيصالي» الناجح أسرع بكثير من بيع فكرة جديدة.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

Actionable target accounts for Zain B2B Presales & Cloud/Hosting team to research, locate the Decision-Maker, and pitch

#	TARGET ORGANIZATION (EN / AR)	OPERATING HUB	DECISION-MAKER (DM) TO SEARCH	WHY TARGET / SPECIFIC PAIN POINT	RECOMMENDED PRESALES OUTREACH PITCH
1	**Ministry of Finance & Economic Planning (Eisali Phase 2 Expansion)** وزارة المالية والتخطيط الاقتصادي (توسيع منظومة «إيصالي» — المرحلة الثانية)	Port Sudan & Returning Khartoum Ministries	**Director General of Information Technology / Director of E-Collection (Eisali)** مدير عام تقنية المعلومات / مدير منظومة التحصيل الإلكتروني («إيصالي»)	Following the 4 Oct 2026 Eisali SMS signing, state revenue is only 4.0% of GDP—the Ministry needs rapid onboarding of dozens of revenue-collecting units and automated ledger reconciliation.	Through Zain's government-relations team, offer Franco Pinto's turnkey reconciliation portal and Bede digital fee-collection rail on top of the Eisali SMS short code.
2	**Taxation Chamber (ديوان الضرائب)** ديوان الضرائب السوداني	Port Sudan, Khartoum & Safe State Capitals	**Secretary-General / Director of IT & E-Taxation** الأمين العام لديوان الضرائب / مدير تقنية المعلومات والضرائب الإلكترونية	Tax offices operating from temporary premises lack fixed fibre lines and need reliable taxpayer SMS filing reminders and cashless tax-clearance receipts.	Replicate the Eisali template: dedicated tax notification short code, citizen IVR lookup, and 'Khartoum Return' 4G/APN office connectivity kits.
3	**Civil Registry & Passports Corporation (السجل المدني والجوازات)** الإدارة العامة للسجل المدني والجوازات	Port Sudan, Kassala, Atbara, Dongola & Khartoum Service Centres	**Director of Technical & Information Systems (Civilian E-Services)** مدير الأنظمة التقنية والمعلوماتية (خدمات الوثائق المدنية)	Millions of displaced and returning citizens are queuing for national numbers, birth certificates and passport status updates; Zain already lists Civil Registry on its APN page.	Provide dual-path APN for reopened Khartoum registry centres plus an automated SMS/USSD document-ready notification line to eliminate physical crowding.
4	**Khartoum State Government — Returning Ministries Complex** حكومة ولاية الخرطوم — مجمع الوزارات والمحليات العائدة	Khartoum, Omdurman & Bahri	**Director General of Khartoum Information Center / State Digital Transformation Lead** مدير عام مركز معلومات ولاية الخرطوم / مسؤول التحول الرقمي بالولاية	Following the 11 Jan 2026 formal return and end-October staff reporting deadline, ministries are working from hosted buildings (such as SMRC HQ) where copper and fibre were destroyed.	Pitch the 'Khartoum Return' rapid office kit: 4G CPE routers, private APN interconnect, ZainCloud hosting, and Cisco-based UCaaS.
5	**Red Sea & Kassala State Chambers of Zakat & Municipal Revenue** ديوان الزكاة وإدارات الإيرادات المحلية — ولايتي البحر الأحمر وكسلا	Port Sudan & Kassala	**State IT Director / Head of Revenue Collection & Social Disbursement** مدير تقنية المعلومات بالولاية / مدير التحصيل والمصارف الاجتماعية	Collecting municipal fees and distributing social support in the busiest eastern host states requires cashless channels and transparent reconciliation.	Offer Bede Corporate for social payouts alongside Eisali-modelled SMS receipting for municipal fee collections (strictly screened & Zain-led).

COMBINED RANK #6

Tier 3 · Programme-led (6–12 months) | Strategy Score: 3.30 / 5.0 (#6) | Sales View Rank: #5

Health

القطاع الصحي

1. MARKET REALITY & BUYER PERSONA

Buyer: Hospital Director, private hospital and pharmacy chain owners, NGO Health Programme Managers, Federal Ministry of Health.

- Government reports ~75% of health facilities resumed operations by July 2026; WHO logged 153 suspended and 182 reduced-capacity facilities across 13 states in Aug 2026. [REPORTED · [61]]
- Digital health was explicitly on the agenda of Zain's April 2026 meeting with the Telecom Minister in Khartoum. [VERIFIED · [15]]

Operational Pain Points:

- Patient appointment, maternal health and vaccination reminders across displaced populations.
- Vaccine and medicine cold-chain monitoring on unreliable power.
- Paying community health workers in remote clinics without cash.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Bulk SMS and IVR reminders; CCaaS for health hotlines.
- IoT and APN/data cards for clinics; ZainCloud; Bede payments to health workers.

RECOMMENDED PRESALES OPENING LINE:
"Reminders and cold-chain alerts that work on any phone."

Lead Bundle: An SMS appointment/vaccination reminder pilot with one NGO health programme or private hospital chain.

Sales Route: NGO health partners (WHO, UNICEF, IMC) and private hospital/diagnostic chains in Port Sudan and Khartoum.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Solar-powered IoT temperature loggers with instant SMS excursion alerts.
- Lightweight clinic appointment and patient SMS confirmation system.
- Privacy-aware hosting outside conflict zones.

Commercial & Risk Flags:

- Health cluster is only 3% funded [26]—focus on funded INGO programmes and private chains.
- Sudan lacks a comprehensive data-protection law [70]; patient data requires strict contractual safeguards.

ملخص العرض بالعربية: تعتمد البرامج الصحية على الرسائل النصية البسيطة والتقارير الميدانية والمدفوعات الصغيرة — والبيع عبر برامج المنظمات الممولة يسرّع التعاقد.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

1	**WHO Sudan & Federal EPI (Expanded Programme on Immunization)** منظمة الصحة العالمية (WHO) وبرنامج التحصين الموسع الاتحادي	Port Sudan, Kassala, Gedaref & Khartoum Cold-Chain Hubs	**WHO Health Operations / Cold-Chain & EPI Logistics Officer** مدير العمليات الصحية بمنظمة الصحة العالمية / مسؤول لوجستيات سلسلة التبريد واللقاحات	Vaccine cold-chain fridges run on unstable solar/diesel power across 13 states, and community health workers need timely stipend payouts and outbreak reporting.	Deploy Franco Pinto solar IoT temperature loggers on Zain M2M SIMs with instant SMS excursion alerts, plus Bede stipends for vaccination teams.
2	**Al-ribat / Royal Care & Private Specialist Hospitals (Port Sudan & Khartoum)** المستشفيات التخصصية والمراكز الطبية الخاصة (بورتسودان والخرطوم)	Port Sudan, Atbara & Reopening Khartoum Clinics	**Hospital Medical Director / IT & Patient Services Manager** المدير الطبي للمستشفى / مدير تقنية المعلومات وخدمات المرضى	Visiting specialist doctors rotate between cities; patients miss appointments or lab results without automated SMS notices and cashless billing.	Pitch the lightweight clinic appointment & lab-result SMS confirmation portal + Bede QR counter acceptance + 4G/APN clinic connectivity.
3	**Al-Borg / Total Lab Care Diagnostic Laboratories** سلاسل المعامل والمختبرات الطبية التشخيصية	Port Sudan, Kassala, Wad Madani, Atbara & Khartoum	**General Manager / Laboratory Information System (LIS) Manager** المدير العام / مدير نظام معلومات المختبرات (LIS)	Patients travel long distances just to collect paper lab results when mobile data is congested or WhatsApp PDF delivery fails.	Integrate Zain Bulk SMS / SMPP directly with their LIS to send instant critical lab alerts and low-bandwidth result links.
4	**Amipharma / Blue Nile Pharmaceutical Distributors** شركات توزيع واستيراد الأدوية (أميفرما وموزعو الإمداد الدوائي)	Port Sudan Warehouses & Eastern/Northern Distribution Routes	**Supply Chain & Cold-Storage Director / Commercial Manager** مدير الإمداد والتخزين المبرد / المدير التجاري	Temperature-sensitive insulin and biologics require monitored cold warehouses and refrigerated transport trucks from Port Sudan.	Combine Zain Fleet VTS + cold-chain IoT sensors for pharma trucks with Bede B2B payment collection from retail pharmacies.
5	**Sudanese Red Crescent Society (SRCS) & Maternal Health Clinics** جمعية الهلال الأحمر السوداني وعيادات الرعاية الأولية	National Network Across All Safe States & Khartoum	**Secretary-General / Director of Health & Disaster Management** الأمين العام / مدير الإدارة الصحية وإدارة الطوارئ	Coordinating thousands of volunteers, blood-bank alerts and community clinics across states when internet blackouts occur.	Provide Zain Short Code & Auto-Dialer emergency dispatch, volunteer Bede micro-stipends, and offline-capable SMS reporting.

COMBINED RANK #7

Tier 3 · Programme-led (6–12 months) | Strategy Score: 3.05 / 5.0 (#7) | Sales View Rank: #6

Agriculture & Exports

الزراعة والصادرات الزراعية

1. MARKET REALITY & BUYER PERSONA

Buyer: Agribusiness GMs, exporters of sesame, livestock and gum arabic, cooperative managers, and FAO/NGO programme leads.

- 2025 preliminary official exports: livestock US$466.3M, sesame US$333.7M (288,941 t), gum arabic US$78.2M (62,514 t), cotton US$64.1M. [VERIFIED · [25]]
- Gedaref, Kassala and River Nile are the core SAF-held producing states; Zain holds a written Smart Agriculture ('Hagool') product ready to publish. [VERIFIED · [1,26]]

Operational Pain Points:

- Getting accurate daily crop market prices and weather/pest advice to farmers.
- Monitoring remote solar irrigation pumps reliably.
- Paying outgrowers and purchasing harvest crops without transporting physical cash.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Bulk SMS and IVR advisory; Smart Agriculture ('Hagool') once published.
- IoT for solar irrigation pumps; Fleet VTS for export trucking to Port Sudan.
- Bede input-credit and harvest payouts; Hybrid Flex for estate staff.

RECOMMENDED PRESALES OPENING LINE:
"One SMS line to every farmer, and cashless payments at harvest."

Lead Bundle: A market-price SMS service and Bede outgrower payout pilot with one cooperative or food-security programme.

Sales Route: Agricultural cooperatives, sesame/gum arabic exporters' associations, and FAO / NGO food-security programmes.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Farmer registry with automated Arabic SMS/IVR market-price and weather advisory.
- Solar irrigation pump telemetry and soil sensor dashboards.
- Outgrower payout reconciliation for exporters and donor programmes.

Commercial & Risk Flags:

- Seasonal cashflows and low individual ability to pay—anchor contracts on exporters and NGO/FAO programmes.

ملخص العرض بالعربية: الزراعة هي أوسع قاعدة اقتصادية غير تعدينية ويحمل المزارعون هواتف جوالة بالفعل. البيع عبر المصدّرين وبرامج المنظمات يحقق انتشاراً واسعاً دون بيع فردي مكلف.

Offer a cooperative group bundle: SMS buyer-matching board, Bede instant settlement, and solar pump IoT monitoring.

COMBINED RANK
#8

Tier 4 · Gated (Zain-led due diligence only) | Strategy Score: 3.00 / 5.0 (#8) | Sales View Rank: #7

Mining & Gold

التعدين والذهب

1. MARKET REALITY & BUYER PERSONA

Buyer: Site Operations Manager, IT Lead and Security Manager at licensed mining companies; SMRC.

- State miner SMRC reported 70 t of gold produced in 2025 (113% of target); official gold exports were 14.7 t worth US$1.536bn. [VERIFIED · [25,57]]
- About 79% of gold output is reported not to pass through official exports, creating severe sanctions and conflict-minerals exposure. [REPORTED · [58]]

Operational Pain Points:

- Remote concession sites far beyond cellular coverage.
- Tracking heavy vehicles, fuel tankers and site equipment.
- Worker safety and paying site crews without moving cash across long desert routes.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- IoT, Fleet, VTS, APN and data cards; Push-to-Talk once published.
- Site payroll through Bede; Partner VSAT for sites beyond coverage.

RECOMMENDED PRESALES OPENING LINE:
"Know where every vehicle and asset is."

Lead Bundle: Tracking for a small vehicle fleet at one licensed government-side mining operator.

Sales Route: Zain enterprise account team, strictly after Zain-led legal and sanctions due diligence.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Geofencing, route deviation alerts and heavy-equipment telemetry.
- Store-and-forward tracking devices and ERP integration.

Commercial & Risk Flags:

- HIGH REPUTATIONAL & SANCTIONS RISK: Gold is linked to armed-group financing and targeted US/EU/UN designations. Exclude gold traders and anything in RSF-held areas; proceed only with formal Zain legal clearance.

ملخص العرض بالعربية: الذهب هو أكبر مصدر للنقد الأجنبي في السودان، وتحتاج شركات الامتياز المرخصة إلى تتبع المعدات والربط وصرف الأجور إلكترونياً.

Education

التعليم والجامعات

1. MARKET REALITY & BUYER PERSONA

Buyer: University ICT Directors, Registrars, private school owners, Ministry of Higher Education.

- Universities were ordered back to Khartoum campuses by August 2026, while ~71% of University of Khartoum academics remain abroad. [REPORTED · [62]]
- Zain holds written EDU-PRO / LMS-PRO and Zees education products, not yet published on public menus. [VERIFIED · [1]]

Operational Pain Points:

- Teaching returning students in Khartoum while most faculty remain abroad.
- Collecting tuition fees and publishing exam results across displaced student cohorts.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Campus data bundles, Business Flex and data cards for staff and students.
- Bulk SMS for exam results; Bill Payment and Bede for tuition fees; EDU-PRO / LMS-PRO once published.

RECOMMENDED PRESALES OPENING LINE:
"Keep students connected and informed wherever faculty are located."

Lead Bundle: A campus data bundle plus exam-result SMS & Bede fee collection with one returning university.

Sales Route: University consortia, private schools/universities and the Ministry of Higher Education.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Low-bandwidth, offline-capable learning portal and student SMS result lookup.
- Automated tuition fee-payment integration with university registrar records.

Commercial & Risk Flags:

- Very constrained public budgets (education cluster is 1.2% funded [26]); exam-season internet shutdowns disrupt live classes.

ملخص العرض بالعربية: استئناف الدراسة الجامعية مع وجود الأساتذة بالخارج يجعل منصات التعلم خفيفة الاستهلاك والرسائل النصية شرطاً أساسياً للتشغيل.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

أهم 5 عملاء محتملين ودليل صناع القرار

Actionable target accounts for Zain B2B Presales & Cloud/Hosting team to research, locate the Decision-Maker, and pitch

#	TARGET ORGANIZATION (EN / AR)	OPERATING HUB	DECISION-MAKER (DM) TO SEARCH	WHY TARGET / SPECIFIC PAIN POINT	RECOMMENDED PRESALES OUTREACH PITCH
1	**University of Khartoum (UofK — Campus Return & Remote Faculty)** جامعة الخرطوم (العودة للحرم الجامعي والربط مع الأساتذة بالخارج)	Khartoum Main Campus & Regional Exam Centres	**Director of University ICT Center (UofK) / Academic Registrar** مدير مركز تقنية المعلومات بجامعة الخرطوم / أمين الشؤون العلمية	Ordered back to Khartoum campuses by Aug 2026 while 71% of UofK academics remain abroad [62]—requires hybrid learning, fee collection and exam SMS.	Pitch Zain's written EDU-PRO / LMS-PRO platform + campus 4G/APN bundles + Bede tuition fee payment + Bulk SMS exam results.
2	**Sudan University of Science & Technology (SUST)** جامعة السودان للعلوم والتكنولوجيا (SUST)	Khartoum Campuses & Safe-State Exam Hubs	**Director of Computer & Information Technology Center / Dean of Admissions** مدير مركز الحاسوب وتقنية المعلومات / عميد القبول والتسجيل	One of Sudan's largest student bodies spread across states needs low-bandwidth lecture access, registration SMS notifications and cashless tuition settlement.	Deploy Franco Pinto's low-bandwidth student portal integrated with Zain Bill Payment / Bede and student Flex data bundles.
3	**University of Medical Sciences & Technology (UMST — Mamouniry)** جامعة العلوم الطبية والتكنولوجيا (UMST — مأمون حميدة)	Port Sudan / Safe Hubs & Returning Khartoum Facilities	**Vice President for Administration & Finance / IT Director** نائب الرئيس للشؤون الإدارية والمالية / مدير تقنية المعلومات	Private fee-paying medical and engineering students expect uninterrupted online lectures, clinical scheduling and digital fee receipts.	Offer dedicated Zain APN + 4G campus routers, Cisco-based UCaaS for international lecturers, and automated SMS/Bede tuition reconciliation.
4	**Red Sea University (Port Sudan) & University of Kassala** جامعة البحر الأحمر (بورتسودان) وجامعة كسلا	Port Sudan & Kassala Campuses	**University ICT Director / Secretary of Scientific Affairs** مدير تقنية المعلومات بالجامعة / أمين الشؤون العلمية	Hosting thousands of transferred students and national exams from other universities, straining campus Wi-Fi and registrar offices.	Sell high-capacity 4G campus broadband + Short Code exam-seat and result lookup + Bede exam-fee collection.
5	**National Ribat / International Private School Chains (Port Sudan & Khartoum)** الجامعات الخاصة وسلاسل المدارس الدولية والخاصة (بورتسودان والخرطوم)	Port Sudan, Atbara & Khartoum	**School Chain Principal / Finance & Parent Relations Manager** مدير عام المدارس / المدير المالي ومسؤول التواصل مع أولياء الأمور	Exam-season internet shutdowns (3.5 hours/day in Apr 2026 [40]) block WhatsApp parent groups and disrupt installment fee collection.	Provide an offline-safe Parent SMS Alert & Bede Tuition Installment Bundle that reaches every parent's phone during data shutdowns.

Tier 4 · Later (12+ months) | Strategy Score: 2.65 / 5.0 (#11) | Sales View Rank: #8

Oil, Energy & Solar

النفط والطاقة والطاقة الشمسية

1. MARKET REALITY & BUYER PERSONA

Buyer: Field IT Manager and HSE Manager at energy operators; commercial solar importers and installers.

- Solar is booming: imports rose ~6× in a year; diesel generation costs ~US$0.45/kWh vs US$0.02 on the grid; UNDP puts grid damage at up to US$3bn. [VERIFIED · [28,30,31]]
- Oil exports (including South Sudan crude) run via the Bashayer terminal near Port Sudan. [REPORTED · [63]]

Operational Pain Points:

- Telemetry from pipelines, terminals and commercial solar installations.
- Generator diesel monitoring and theft prevention at commercial compounds.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Private APN and IoT SIMs for SCADA and inverter telemetry.
- Fleet VTS for field crews; solar-installer reseller channel for monitoring SIMs.

RECOMMENDED PRESALES OPENING LINE:
"Secure private data links and remote generator/solar monitoring."

Lead Bundle: Generator fuel and solar-inverter IoT monitoring at one commercial site or through a solar installer.

Sales Route: Zain key accounts and commercial solar importers/installers.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Generator fuel-level and solar-yield telemetry dashboards with SMS alerting.
- Hardened APN security design for industrial telemetry.

Commercial & Risk Flags:

- Upstream oil fields sit in contested areas; OFAC designated SBL Energy on 26 Jun 2026 [64]—screen all energy supply chains.

ملخص العرض بالعربية: كل مولد تجاري ومنظومة طاقة شمسية يمثل أصلاً عالي القيمة يستحق المراقبة، ويشكل مركّبو الطاقة الشمسية قناة توزيع جاهزة.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

Construction & Reconstruction

المقاولات وإعادة الإعمار

1. MARKET REALITY & BUYER PERSONA

Buyer: Project Directors and Operations Managers at engineering and construction contractors.

- Rehabilitation of power, water, roads, internet and ministry buildings is under way in Khartoum. [VERIFIED · [48]]

Operational Pain Points:

- Heavy equipment tracking and theft prevention across open work sites.
- Temporary site communications and paying subcontractors and daily labourers without cash.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Fleet and IoT equipment tracking; Push-to-Talk once published.
- 4G data cards and Hybrid Flex for site engineers; workforce SMS and Bede payroll.

RECOMMENDED PRESALES OPENING LINE:
"Track equipment, connect sites, pay daily crews."

Lead Bundle: Equipment trackers and site data cards for one contractor working on a Khartoum rehabilitation project.

Sales Route: Contractor associations and UNDP / donor-funded infrastructure rehabilitation programmes.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Heavy-asset telemetry, mobile site-progress reporting app, and ERP cost-centre integration.

Commercial & Risk Flags:

- Donor funding timelines remain uncertain; screen contractor ownership chains for sanctions compliance.

ملخص العرض بالعربية: سيكون قطاع إعادة الإعمار ضخماً عند تدفق التمويل؛ والمقاولون الذين يعتمدون حلول زين مبكراً سيتوسعون بها تلقائياً.

TOP 5 POTENTIAL TARGET CLIENTS & DECISION-MAKER (DM) OUTREACH PLAYBOOK

Hospitality & Guesthouses

الضيافة والفنادق والاستراحات

1. MARKET REALITY & BUYER PERSONA

Buyer: Hotel General Manager or IT Manager in Port Sudan, Kassala and Khartoum guesthouses.

- Port Sudan hotels and Khartoum guesthouses host UN, NGO, diplomatic and visiting business staff. [VERIFIED · [35,51]]

Operational Pain Points:

- Guest Wi-Fi backhaul and failover—international aid and business guests choose accommodation based on internet reliability.
- Direct booking confirmations and cashless bill settlement.

2. ZAIN SUDAN B2B SOLUTION & ENTRY PITCH

- Postpaid broadband, 4G CPE routers and data cards with APN failover; Bede POS/QR and booking SMS.

RECOMMENDED PRESALES OPENING LINE:
"Reliable guest internet and instant booking confirmations."

Lead Bundle: 4G/APN Wi-Fi backhaul plus booking confirmation SMS and Bede QR for one hotel or guesthouse group.

Sales Route: Zain account managers in Port Sudan and Khartoum; fold directly into the SME 'Business in a Box' motion.

3. FRANCO PINTO LAYER & COMPLIANCE

Franco Pinto Integration Value-Add:

- Captive-portal guest Wi-Fi management and lightweight booking engine with SMS confirmations.

Commercial & Risk Flags:

- Small niche sector—keep inside the standard SME bundle rather than building a dedicated sales track.

ملخص العرض بالعربية: تتنافس الفنادق والاستراحات بشكل مباشر على توفير إنترنت مستقر لموظفي المنظمات والشركات الزائرين.

1	**Coral Port Sudan & Red Sea Premier Business Hotels** فندق كورال بورتسودان وفنادق الأعمال الكبرى بالبحر الأحمر	Port Sudan Waterfront & Business District	**Hotel General Manager / IT & Guest Experience Manager** المدير العام للفندق / مدير تقنية المعلومات وتجربة النزلاء	Hosting top UN officials, diplomats and corporate executives who demand resilient conference Wi-Fi, failover links and instant booking confirmations.	Provide dual-path Zain 4G/APN enterprise backhaul + Franco Pinto captive-portal guest Wi-Fi management + automated booking SMS & Bede POS.
2	**UN & INGO Diplomatic Guesthouses & Compounds (Port Sudan & Kassala)** استراحات ومجمعات إقامة موظفي الأمم المتحدة والمنظمات والبعثات (بورتسودان وكسلا)	Port Sudan (44 hubs) & Kassala (21 hubs) [35]	**Guesthouse Operator / Compound Facility & ICT Coordinator** مشغل الاستراحة / منسق المرافق والاتصالات بالمجمع السكني	Shared humanitarian connectivity hubs move to cost-sharing in 2026 [33] and unlicensed Starlink grace period ends Nov 2026 [36]—guesthouses compete on legal, reliable internet.	Transition compound guesthouses to Zain postpaid broadband + APN failover + licensed VSAT backup before the November deadline.
3	**Khartoum Returning Diplomatic & Executive Guesthouses** فنادق واستراحات البعثات الدبلوماسية ورجال الأعمال العائدة في الخرطوم	Khartoum Safe Administrative Districts	**Owner / General Manager & Security/IT Lead** المالك / المدير العام ومسؤول التقنية والأمن	Embassies and international agencies are scouting secure premises in Khartoum [51] where fixed fibre is still cut and power relies on solar/diesel.	Equip returning Khartoum guesthouses with the 'Khartoum Return' connectivity kit: 4G CPE routers, APN failover, generator IoT monitoring, and VSaaS security cameras.
4	**Atbara, Dongola & Wad Madani / Kosti Transit Business Hotels** فنادق واستراحات رجال الأعمال والمسافرين في عطبرة ودنقلا وكوستي	Atbara, Dongola & Kosti	**Hotel Owner / Front-Office & Reservations Manager** مالك الفندق / مدير الاستقبال والحجوزات	High occupancy from traders, engineers and returning families, but manual phone bookings and cash-only reception cause missed reservations.	Fold into the SME 'Business in a Box' offer: Franco Pinto lightweight SMS booking confirmation engine + Bede QR deposit acceptance + guest Wi-Fi.
5	**Port Sudan Conference Halls, Serviced Apartments & Travel Agencies** قاعات المؤتمرات والشقق الفندقية ووكالات السفر والطيران في بورتسودان	Port Sudan Airport Corridor & Downtown	**General Manager / Corporate Events & Ticketing Manager** المدير العام / مدير الفعاليات والحجوزات للشركات	Port Sudan Airport is Sudan's primary international gateway; travel agencies and serviced apartments need instant flight/booking SMS alerts and corporate billing.	Offer Zain Bulk SMS flight/booking notifications, CCaaS/IVR customer hotline, and Bede Corporate settlement.

WHAT REMAINS 100% INSIDE ZAIN SUDAN

- **Network, Spectrum & Licences:** All cellular infrastructure, APN routing, SMPP gateways and TPRA regulatory licences remain 100% with Zain.
- **The Wallet Core & Regulated Finance:** All CBOS-regulated e-money issuance, settlement and custody stay strictly inside Bede and Zain.
- **Customer Relationship, Contract & Brand:** Zain owns the enterprise customer account, leads commercial contracting, and fronts the brand.
- **Government Relations:** Led by Zain alone across federal ministries and state administrations.
- **End-Customer Pricing & Tariffs:** Zain confirms and controls all product specifications, tariffs and bundle prices in the market.

WHAT FRANCO PINTO ADDS AS INTEGRATION PARTNER

- **Integration & API Middleware:** Connecting Bede, SMPP and USSD APIs directly to client ERPs, core banking switches and NGO beneficiary databases.
- **Reconciliation & Donor Portals:** Bilingual (Arabic/English) audit portals for corporate disbursements, fee collections and real-time delivery receipts.
- **Automated Messaging & IVR Flows:** Arabic and English messaging front desks, citizen notification templates, and interactive IVR menus.
- **Fleet & IoT Analytics Dashboards:** Custom telemetry views, geofencing alerts, cold-chain logs and fuel/solar monitoring.
- **Resilience & Offline-First Engineering:** Store-and-forward sync, automatic SMS/USSD fallback when data drops, and dual-path APN failover architectures.
- **Solution Packaging & Technical Pre-Sales:** Live technical demos, workshop architecture support, and dealer training kits.

PHASED EXECUTION ROADMAP (0–90 DAYS · 3–6 MONTHS · 6–12 MONTHS)

خارطة الطريق المرحلية للتنفيذ

0 TO 90 DAYS · PROVE IT

Focus: NGOs / UN & Humanitarian; Banking & Fintech; SME bundle design

- Agree the partner framework, co-selling rules and per-sector engagement model.
- Complete joint sanctions, KYC and data-protection compliance reviews.
- Zain nominates one pilot customer per Tier-1 sector (one NGO/UN agency and one bank).
- Build the Connected Aid demo: Bede disbursement reconciliation portal with SMS confirmations and an IVR feedback line (Arabic & English, offline-tolerant).
- Engage agencies through ETC and Logistics Cluster forums ahead of the November 2026 Starlink deadline.
- Start a bank OTP SMPP and dual-path APN pilot.

Gate: Partner agreement signed and at least one live pilot operating

3 TO 6 MONTHS · REPEAT IT

Focus: Government (Zain-led); Logistics & Ports; Retail & SMEs

- Turn Tier-1 pilots into repeatable packages with standard technical onboarding.
- Replicate the Ministry of Finance Eisali template for a second state agency, led by Zain.
- Launch 'Business in a Box' through Zain's Authorized Sales Partners.
- Start the Export Corridor fleet & automated cargo SMS pilot in Port Sudan.
- Target 3 to 5 paying enterprise customers (an operational target, not a forecast).

Gate: Repeat paying customers in at least two sectors

6 TO 12 MONTHS · SCALE IT

Focus: Health; Agriculture; Mining (gated); Energy & Solar; Construction

- Roll out health reminders, cold-chain IoT and agriculture advisory through NGO/FAO partners.
- Bring a TPRA-licensed VSAT partner and SD-WAN over 4G into the market.
- Publish Zain's written internal products (UCaaS, Push-to-Talk, VSaaS, Zdrop, EDU-PRO, Hagool).
- Engage licensed mining and energy accounts strictly under Zain-led compliance clearance.
- Have the Khartoum reconstruction site kit ready as donor funding opens.

Gate: Partner packages contributing measurable incremental traffic & Bede volume

FIVE CRITICAL RISKS & BUILT-IN ARCHITECTURAL SAFEGUARDS

المخاطر الرئيسية وضوابط الحماية المدمجة

RISK FACTOR	OPERATIONAL REALITY IN SUDAN	BUILT-IN TECHNICAL & COMMERCIAL SAFEGUARD
Security & Conflict Geography	Darfur under RSF control since Oct 2025; Kordofan is the conflict's epicentre; Blue Nile fighting intensified from Aug 2026 [69].	**Serve SAF-held safe areas only; Franco Pinto delivers remotely with zero staff travel; host all cloud data outside conflict zones.**
Network Outages & Exam Shutdowns	46 shutdowns since 2019 (10 in the last 12 months); 3.5h daily exam shutdowns in Apr 2026 [40]; 6.5h national blackout on 22 Oct 2026 [42].	**Offline-tolerant engineering (SMS/USSD fallback, store-and-forward sync); no uptime SLAs tied to raw Sudanese links; explicit force-majeure carve-outs.**
Currency Collapse & Multi-Rate Distortion	Bank rate ~4,200, customs >5,600, parallel market ~10,000 SDG per US$ in Oct 2026 [23,24]. ~48% depreciation Dec 2025–Jul 2026 [20].	**Indexed or hard-currency reference pricing where regulations allow; short billing cycles; prepaid setup work; no SDG-denominated partner fees.**
Targeted International Sanctions	No country-wide embargo, but targeted US (E.O. 14098/13400 + 50% rule), Canadian, EU and UN 1591 regimes apply [64,65,66,67].	**Screen every customer, beneficial owner, bank and end-user against UN, US, Canadian, EU and UK lists before contract and at each payment; exclude defence, security, DIS/Giad-linked, gold-trading and RSF-area entities.**
Cross-Border Settlement & Bank De-Risking	Repatriating hard currency from inside Sudan is slow and uncertain; direct Sudan-based payers trigger international bank de-risking.	**Contract and invoice through a Zain Group entity outside Sudan (e.g., Kuwait or Bahrain), paid from a named corporate account in EUR, AED or KWD.**

6 IMMEDIATE STEPS TO FIRST LIVE PILOT

1. **Leadership Workshop:** Session with Zain Sudan Business leadership to confirm sector focus, Tier-1 priorities and account owners.
2. **Zain Product & API Briefing:** Confirm technical specifications, SLAs, SMPP/USSD/Bede API access and readiness of unpublished products.
3. **Partner Commercial Framework:** Agree engagement model (referral, resale or white-label delivery), co-selling rules and commercial terms.
4. **Joint Compliance & Legal Review:** Confirm sanctions screening workflow, KYC, data-processing agreement and Zain Group offshore payment route.
5. **Tier-1 Pilot Nomination:** Zain nominates one humanitarian agency (NGO/UN) and one commercial bank for immediate scoping.
6. **Connected Aid Live Demo:** Deliver the working Bede reconciliation + SMS/IVR demo ahead of the November 2026 Starlink deadline.

5 ALIGNMENT QUESTIONS FOR ZAIN LEADERSHIP

1. Can Zain confirm its FY2025 and Q1 2026 figures and share the enterprise (B2B) revenue split for use in the final operational plan?
2. Which written but unpublished products (UCaaS, Push-to-Talk, VSaaS, Zdrop, EDU-PRO, Hagool) are commercially ready to sell today?
3. Does ZainTECH or any Zain Group partner cover Sudan for SD-WAN, managed security, data-centre co-location or VSAT?
4. Are documented USSD and Bede Corporate APIs available to technical integration partners, and under which onboarding terms?
5. Which Zain Sudan team owns the humanitarian/UN accounts and the Emergency Telecommunications Cluster (ETC) relationship?

[VERIFIED · PUBLIC FACT]
Verified from official Zain Group filings, World Bank, IMF, UNOCHA, IOM, FAO, Central Bank, or TPRA announcements.

[REPORTED · REGIONAL]
Verified from Zain KSA, Zain Kuwait, Zain Bahrain, or reputable regional telecom reporting.

[INFERENCE · ESTIMATE]
Derived transparently from cited figures using explicit multi-criteria scoring weights.

[UNKNOWN · INTERNAL]
Flagged for validation with Zain Sudan's internal network, billing, and B2B Presales teams.
